TECHNOCRAT ENGINEERS, the pioneer in Construction & Engineering Solutions.

The vision of every Businessman in the Service industry and a dream stop store for every customer related to the Construction and Hardware market. This vision of a young and dynamic Engineer and Entrepreneur topped the Hardware and Supply market, in the very first year of its establishment. Today Technocrat is not just a supplying company, but is that pit stop which supports multiple construction projects and sees them through completion.

Technocrat has immensely grown in reputation and has been able to carve an exclusive niche for itself in the market. Variety and quality products along with utmost customer satisfaction have been the absolute keys to success for us.

The demands of the service-oriented industry are well researched and understood by our eminent team, who strive for optimum customer satisfaction, as their ultimate goal. From cozy homes to plush hotels, from home work systems to multi national offices, we endeavor to bring reliable, dependable and highly regarded items that our clients insist upon, the quality and guarantee of which are unquestionable. We make sure that our orders are executed with the highest degree of accuracy, precision and definitely within the time frame promised. Our dedicated work force shall bring to life all your construction dreams.

The ever-changing construction market, with its advanced technologies makes 'building' a cherishable experience. Technocrat utilizes the latest technologies, captures the emerging trends and styles, resulting in the acquisition of utmost knowledge of the most up-to-date and modern products and lends to our clientele, not just merchandise but in-depth product knowledge and the latest in industry development.
