

RethinkingWeb is a multi faceted organization in Mumbai, having web designing and development as its core USP. We have a fully operational facility in Mulund along with a workforce of a total of 6 people. We specialize in web designing, graphic designing, corporate branding, software development and testing, we also take on projects related to S.E.O. and S.M.O.

Our designers are well versed with latest web development technologies like:

- 1) XML, XHTML, HTML5, CSS3, JQuery.
- 2) CMS – Joomla, Wordpress, Drupal.
- 3) Shopping carts – Prestashop, Virtuemart, Magento, Etc.
- 4) LAMP (Linux, Apache, MySQL, php), AJAX.

Also we are fluent with the use of designing tools like:

- 1) Adobe Photoshop CS5 and lower
- 2) Adobe Illustrator CS5 and lower.
- 3) Adobe InDesign CS5 and lower.
- 4) Adobe Flash Professional CS5 and lower.
- 5) Adobe Dreamweaver CS5 and lower.
- 6) Coreldraw X4 and lower.
- 7) Microsoft Frontpage 2003.

Apart from having a strong working knowledge on the above mentioned tools and technologies, RethinkingWeb also believes in cementing their relationships with their clients by offering the best standards of work and understanding the need of the client and helping visualize dreams into realistic visuals. We have a stringent process in place understanding your needs and requirements and have delivered projects which have been appreciated and have helped a lot of our clients actually get more than what they expected.
