OUR VISION

The underlying philosophy of Beyond Voyages towards the concept of traveling is to dream, explore and experience. To dream and experience a way of voyaging that is not ordinary, that is not bound by existing standards of travel. We want the customer to reach into his mind rather than into a brochure. We want him or her to think of new possibilities, possibilities that are beyond what run of the mill tour operators' offer. Beyond Voyages wants him to think of more than just his destination. We want him to think Beyond existing standards and ideas of vacationing.

Quality at **Beyond Voyages** is never compromised. Because holidaying needs to be carefree but not at the cost of quality. We strive to ideate tours that help you save your money and stay delighted.

To sum it up, Beyond Voyages will be offering experiences to customers, experiences that will be beyond every day tours, beyond ordinary vacationing. Beyond Voyages will be offering an experience that is in itself a voyage and that will take the client and his family ...Beyond Voyages.

WILDLIFE, ADVENTURE & ECO-TOURISM

Beyond Voyages brings you this amazing opportunity to discover destinations that are rich in flora & fauna. It is an insightful, mindful and participatory travel experience to natural and cultural environments, assisting the well-being of the local cultures and environments for future generation. What seems like a safari might end up being a window to discover the unknown.... An impressive gamut of eco-friendly travel packages has been designed around nature/biodiversity tours. From adrenaline gushing scuba diving at exotic locale to spotting tigers on an exclusive safari and to setting out on a trek through some of the finest rainforests on foot; ecotourism is worth every penny spent. One of the best ways to help maintain the environment is to learn more about it, and the best way to learn about something is to experience it firsthand.

Ecotourism is a trend catching up faster with travel enthusiasts and our effort is to make it sustainable. It is not nature tourism as the focus is more on conservation, education, traveler responsibility and active community participation.

It is an insightful, mindful and participatory travel experience to natural and cultural environments, assisting the well-being of the local cultures and environments for future generations.

Through ecotourism, we wish to maintain the biological diversity and the multifaceted cultural heritage; travelers wish to experience. This means to travel with much concern in the voyager's mind for the natural and cultural treasures that are fast eroding.

TESTIMONIALS

The travel arrangements made were excellent. The selection of Hotel was done very well in terms of location and budget. It was just not a sale of a tour but great service was provided by Beyond Voyages.

- Mr. Kairav Doshi: Vice President Operations of Kairav Chemofarbe Industries Limited

This was the first time we planned our trip with Beyond Voyages. Basically what we needed was a good accommodation for 2 nights. I called them at last minute and the service was remarkable. Immediately, few alternatives were given. We got our confirmation letter. Understanding my busy schedule they sent their office person to collect the payments from home.

On our check-in at the hotel, I received a call from Beyond Voyages to confirm our arrival at the hotel. They also arranged a late check out for us on the day of departure.

When we returned from our trip, they took our feedback to describe our experience.

It would be a pleasure to plan another trip with them.

TESTIMONIALS

I have experience amazing hotels with 'Beyond Voyages'. My first and only trip so far, which is the most precious for any "Just Married" couple was arranged very well keeping in mind the nature of my tour as well as my specific requirements. The selection of hotels and type of rooms was excellent and I and my wife had the time of our life in those days. I would recommend "Beyond Voyages" not only for the quality of hotels and their services but also for the regular follow-up during the trip about problems faced by us, if any. The most important experience in any vacation is not only when you are in the trip but after it gets over as you carry those memories for your entire lifetime. And I can very well say from my experience that the entire trip was truly "BEYOND VOYAGES..!!!"

- Mr. Moiz Wangrelwala: Chartered Accountant

Thanks for organising our trip at such short notice. We had a great trip and the hotels provided were very good. Had a great time. Although we tried to accommodate quite a lot but still was a fun trip. Thanks for all the help and looking forward to our next trip to Leh and Ladakh.

TESTIMONIALS

When we were looking for a honeymoon destination, we found it very difficult to find a service provider who could customize our dream holiday and make it special to suit our requirements. Finally, we came across Beyond Voyages who made our 4-day trip really unique. Right from the planning stage, they were very helpful and had done their research well. They had good ground knowledge and were in constant touch with us. The trip was planned and executed well right from our doorstep. They suggested a beautiful hotel at a scenic location and provided an customized package. We had come across so many travel vendors, but none was as good as Beyond Voyages. Beyond Voyages is special because, they just didn't book hotels and tickets for our trip (which is what most other travel agents do), they had literally designed our trip as per our demands. I had never received this kind of service from other travel agents.

- Mr. Kiran Radhakrishnan: H.R. Manager - I G Petrochemicals Limited

Must appreciate you had planned our travel very well. We really liked the hotel & it suited our requirement. Your planning & co-ordination with Hotel was amazing. Infact when we enquired with other guests in the hotel, our belief was further emphasized that we got a very good deal as compared to them.

I will recommend your company's services to my friends & colleagues.
