

ROLEX TIN & METAL WORKS

Rolex is India's leading manufacturer and supplier of quality bread & cake bakeware with Non Stick Coated, ancillary items and innovative culinary implements catering to the needs of small and large bakeries, domestic and commercial kitchens and hoteliers.

Rolex Bread baking pans and trays are customized to suit the bakers need fabricated from aluminized steel, a certified food graded material. Our new products in the bakeries range include the Round Garlic Bread mould and the Hot Dog tray.

In addition to the bakery range, **Rolex** also has a wide variety of Aluminum & Silicon bakeware. The Silicon material has been tested by USA FDA CFR 177.2600. The silicon moulds are heat resistant up to 230°C and are available in a plethora of designs. These are used to shape, decorate & make baking, freezing & microwave cooking other turnout shapes for table displays including candles.

We also supply and manufacture ancillary items such as icing sets, various types of biscuit and fancy cutters, measuring implements, cake revolving & display stands, cake pillars, palate knives, Spatulas and also have a large range of plastic and polycarbonate chocolate moulds.

Newly Introduced

**56 Pieces Seamless Icing Tib Set (S.S. #304)
make the tips strong, long lasting & easy to clean.**
