Compact Sheets: 2 to 10 mm, Corrugated Sheets : 0.8 mm to 3.0 mm.

FEATURES: Virtually unbreakable, High light transmission (85% to 89%)
common to all Tuflite sheet products. Light weight design, easy to install
in the field with traditional hand and power tools. Can be used in or
alone component systems. Comply with major model building codes.
Proven performance against breakage, abrasion and structural
delimitation. Considerable lower maintenance cost than glass and acrylic.

DESIGN AND FABRICATION:

Techno Fab is authorize fabricator for Tuflite product range. We can shape your
imagination. The Barrel Vault, Dome, Pyramid, or any other shape can be
designed to suit the requirement and size. We can fabricate supporting
structure in all Aluminum, M.S and aluminum and Stainless steel.

POLYCARBONATE PREFORM PRODUCTS: To cover smaller area or larger area with modular
grid we offer "Preformed" system consisting of formed Domes, or Rectangle Bubbles and
Pyramids from 600 mm to 2000 mm as our standard products.

FINROOF P.V.C. SHEETS :

Finolex PVC SHEETS

Techno Fab is authorize Channel Partner and Installer for Finolex p.v.c. sheets, a subsidiary of Finolex Cables Ltd.

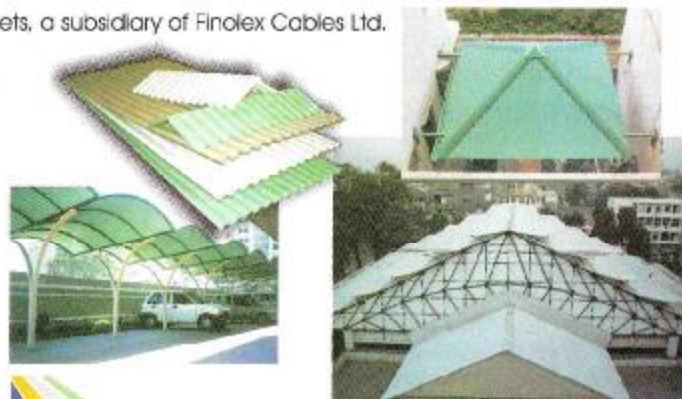

PRODUCT RANGE:

Profile Width in mm : Industrial-1054, Greca -1045, Iron-1086, Big 6-1050.

Available Length: 2.0, 2.5, 3.0 mtrs.

Available in Opaque Colors.:Beige, Blue, White and Green.

PRODUCT BENEFIT: UV protected, Non Combustible material, Does not
warp or wilt. Conforms to international fire safety standards of BS 4203
and ASTM. Resist the corrosive action of chemical and acidic vapours.
Rustproof. Ideal for coastal regions. Hygienic: Suitable for Contact with
foodstuffs. Highly Flexible can be bent perpendicular or parallel to the
corrugation. Highly durable, Does not absorb dust, grime, moss or
mildew Light weight saves on structural cost.

Pre-Painted Galvanized Steel sheets:

NATIONAL COLOR

National Steel and Agro Industries Ltd (NASIL)- An ISO 9001:2000 company and a member of Ruchi Group holds a strong landmark
presence in steel industry. In keeping with the latest international trend in continuous steel strip galvanizing technology, NASIL's most modern
plant at Indore (M.P.) has been set up in technical collaboration with three world
leaders: CMI, Belgium: Stein Heurtey, France and Phoenix works , Belgium.
Moreover both CMI and Phoenix works, under a technical agreement,
will continuously update the plant with the latest innovation in galvanizing.
NASIL has ventured into the manufacturing of color coated / Pre-painted
steel products under the brand **National Color** with annual capacity of
80,000 tons. **National Color** is made from the finest quality cold rolled steel coils,
which are coated with protective metallic coating and finally with multiple layers
of organic coatings. The state-of-art manufacturing facility in technical
collaboration with world leader BRONX Australia.

Product Range : Plain Sheet, Roofing sheet : Width 1000mm & 1060mm.

Advantages: This product has a painted finish that is uniform in colour, gloss, texture
and thickness, with excellent paint adhesion and durability. It can be rollformed,
bent , pressed, cut, drilled, lockseamed and stamped without degradation in the
quality of paint.

DEALER

NETMOS :

Aluminium Roll-Up Mosquito
Bug mesh system with german
technology.
